ユーザ登録する

The screenshot shows the Codeanywhere website with the 'Login' button highlighted. A red dashed box highlights the login form fields: 'Email', 'Password', a 'Stay signed in' checkbox, and a 'Forgot password?' link. Below the form is a 'Login' button. Another red dashed box highlights the social login section with the text 'Or sign in instantly' and icons for Google+, Docker, GitHub, and Facebook. Two green callout bubbles provide context: one for 'アカウント作成する場合' (Account creation case) pointing to the form, and another for 'アカウント連携でログインする場合' (Account linking case) pointing to the social login icons.

認証されているかどうか確認①

The screenshot shows the Codeanywhere dashboard for user y.sato@reedex.co.jp. A red dashed box highlights a notification: "Email address is not verified. Resend Verification Email". A green callout bubble points to this notification with the text: "文字列をクリックすると認証される" (Clicking the text will verify the account). The dashboard includes sections for Subscriptions (No Subscription), Invoices (There are no invoices available for your account), Billing Information (You have no stored billing information), and Enable 2-Factor Authentication.

認証されているかどうか確認②

- ・ 新規アカウント作成の場合、メールに認証用のアドレスが記載されているので、下記のアドレスを開いて認証を完了させる
